

Dear SIRS-It upsets me to hear about petition 04-160 (from the National Association of Broadcasters).

I pay for satellite radio so I can determine what content I hear,when & how! This is no different than cable TV! Why can't satellite subscribers be provided the local services they desire? Why should the NAB have any say on the content we ubscribe to?

Please vote NO on petition 04-160.

Thank you!
